## ACKNOWLEDGEMENT

In the preparation of this book, the Editor has received valuable assistance, from the relatives of -

JOHN OR JOSHUA & MARY (LOGAN) LONG  
and I greatly acknowledge their service.

Especially do I commend those faithful and patient ones, who helped from the beginning to the finish.

Namely my Mother, Mrs. Mary Catherine (Lahiff) Breiner, who has helped me since childhood to always remember my relatives, which has been a very great blessing in the making of this book.

And I honor and respect those who have so kindly sent me their family records for the completion of this book.

All rights reserved.

Editor and Publisher -

Dora Elvin (Breiner) Vought

A suggestion that we keep record of all births, death and marriages, Service Records Etc. in the pages of this book, and send same to the editor or to each party listed in the index of this book, every three years or oftener.

Manager and solicitor-

Dora Elvin (Breiner) Vought.

Their biographies follow - oldest one first and so on-

(1st.) Child of Mary & Joshia Long -

Kizarah Jane Long

known as Aunt Kizzy

She was a hunch-back,

She told some one it

was caused from carrying

too heavy a load - she used to

carry 2 big pails of water at a

time up a long steep hill for all

the big family washing and use.

She stayed with relatives , and the  
children used to tease her by hiding her

pipe , as she smoked for comfort when

she grew older , she lived to be about

seventy years old, they say. And was a  
very loveable person.

---

(2nd.) Child of Mary & Joshia Long

Hugh Long - died in the 1930 ties  
never married

The research of Emma(Long) Handibode -  
concerning her Uncle Hugh Long ,  
Emmas brother, Theodore Long was  
called to Hugh's home some place in  
Iowa to settle Hugh's estate. He  
never left much to his brother  
Wm. Henry Long.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the structure of the atom.

2. The second part of the paper is devoted to a detailed analysis of the results obtained in the first part. It is shown that the results are in good agreement with the experimental data.

3. The third part of the paper is devoted to a discussion of the results obtained in the second part. It is shown that the results are in good agreement with the experimental data.

4. The fourth part of the paper is devoted to a discussion of the results obtained in the third part. It is shown that the results are in good agreement with the experimental data.

5. The fifth part of the paper is devoted to a discussion of the results obtained in the fourth part. It is shown that the results are in good agreement with the experimental data.

6. The sixth part of the paper is devoted to a discussion of the results obtained in the fifth part. It is shown that the results are in good agreement with the experimental data.

7. The seventh part of the paper is devoted to a discussion of the results obtained in the sixth part. It is shown that the results are in good agreement with the experimental data.

Oct. 22, 1882 - Junie Elsie Babbitt Monmouth, Ill.  
June 16, 1943

Lawson McVey Babbitt July 11, 1918

Killed in action during World War 1, a bomb  
exploded near his post and no more trace of him  
was found. Behind a little church near Chatteau  
Thiery France a large a large tombstone is erected  
with the name LAWSON BABBITT engraved on it in  
large letters, in honor of him who died for freedom.  
Roseville Legion Post was named for him -  
Lawson Babbitt Legion Post No. 614 Roseville, Illinois.

I will add - Not so much living here on earth, but  
the good impression we leave after we are gone.

Signed - Dora Elvin (Breiner) Vought

A short biography of Elias McVey Babbitt -  
Elias Babbitt was a very pious man, yet Jolly and honest in his dealings.

A successful nursery salesman and while he lived there was plenty of fruit in his territory from the results of the trees he sold. But after his death there was no more encouragement to grow fruit and the orchards soon dispersed.

(2nd.) child of Elias & Elizabeth (Long) Babbitt

Charles F. Babbitt Sept. 24, 1942

Minnie Mae Johnson

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for the company's financial health and for providing reliable information to stakeholders.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps from initial entry to final review, ensuring that all necessary information is captured and verified.

3. The third part of the document addresses the role of the accounting department in this process. It highlights the need for clear communication and collaboration between different teams to ensure the accuracy and timeliness of the records.

### 4. The importance of regular audits and reviews

Regular audits and reviews are essential for identifying any discrepancies or errors in the records. This process helps to maintain the integrity of the financial data and ensures that the company is always up-to-date with its financial obligations.

### 5. The role of technology in modern accounting

Technology has revolutionized the accounting industry, providing tools and software that streamline the recording and analysis of financial data.

These tools help to reduce the risk of human error and improve the efficiency of the accounting process.

- Automation of repetitive tasks
- Improved data security
- Enhanced reporting capabilities
- Real-time data access

### 6. The future of accounting and finance

The future of accounting and finance is bright, with continued innovation and growth. As companies expand globally and diversify their operations, the demand for accurate financial information will only increase.

By embracing new technologies and maintaining high standards of accuracy, the accounting profession will continue to play a vital role in the success of businesses worldwide.

Journal of the American Medical Association

Table 1	
Year	Number of Cases
1910	100
1911	120
1912	150
1913	180
1914	200
1915	220
1916	250
1917	280
1918	300
1919	320
1920	350

Figure 1. A line graph showing the number of cases from 1910 to 1920. The x-axis represents the year, and the y-axis represents the number of cases. The data points are connected by a line, showing a steady increase over the decade.

Figure 2. A bar chart showing the number of cases for each year from 1910 to 1920. The x-axis represents the year, and the y-axis represents the number of cases. Each year has a corresponding bar, with the height of the bar indicating the number of cases.

Figure 3. A pie chart showing the distribution of cases by age group. The chart is divided into three segments: 0-10 years, 11-20 years, and 21 years and over. The segments are labeled with their respective percentages of the total cases.

Figure 4. A table showing the number of cases by age group and sex. The table has three columns: Age Group, Sex, and Number of Cases. The data is presented for each age group and sex combination.

**Abstract.** This paper presents a new method for testing the null hypothesis of no difference in the distribution of two independent samples. The method is based on the use of a bootstrap procedure to estimate the distribution of the test statistic under the null hypothesis. The test statistic is the difference in the sample means of the two samples. The bootstrap procedure involves resampling with replacement from each sample and computing the difference in the sample means for each resample. The distribution of the test statistic is then estimated by the distribution of the differences in the sample means of the resamples. The test is applied to a data set from a clinical trial comparing two treatments. The results show that the test has good power to detect differences in the distribution of the two samples.

**1. Introduction.** The purpose of this paper is to present a new method for testing the null hypothesis of no difference in the distribution of two independent samples. The method is based on the use of a bootstrap procedure to estimate the distribution of the test statistic under the null hypothesis. The test statistic is the difference in the sample means of the two samples. The bootstrap procedure involves resampling with replacement from each sample and computing the difference in the sample means for each resample. The distribution of the test statistic is then estimated by the distribution of the differences in the sample means of the resamples. The test is applied to a data set from a clinical trial comparing two treatments. The results show that the test has good power to detect differences in the distribution of the two samples.

TABLE 1  
Summary of Test Results

Sample Size	Test Statistic	p-value	Power
10	0.5	0.10	0.10
20	0.5	0.05	0.20
30	0.5	0.02	0.30
40	0.5	0.01	0.40
50	0.5	0.005	0.50
60	0.5	0.002	0.60
70	0.5	0.001	0.70
80	0.5	0.0005	0.80
90	0.5	0.0002	0.90
100	0.5	0.0001	0.95

1. The first part of the report is a general statement of the purpose and scope of the study. It is followed by a brief review of the literature on the subject.

2. The second part of the report is a description of the methods used in the study. This includes a discussion of the subjects, the experimental design, and the data collection procedures.

3. The third part of the report is a presentation of the results of the study. This is followed by a discussion of the implications of the findings.

4. The fourth part of the report is a conclusion. This is followed by a list of references and an appendix containing the raw data.

5. The fifth part of the report is a summary of the findings and a discussion of the limitations of the study.

6. The sixth part of the report is a list of references. This is followed by an appendix containing the raw data.

7. The seventh part of the report is a conclusion. This is followed by a list of references and an appendix containing the raw data.

8. The eighth part of the report is a list of references. This is followed by an appendix containing the raw data.

9. The ninth part of the report is a summary of the findings and a discussion of the limitations of the study.

10. The tenth part of the report is a list of references. This is followed by an appendix containing the raw data.

children 1 - died - T.B. when small  
Idalene Schuster

Ida Lepree - Adapted -  
married

-----  
children - 1 boy & 1 girl

They live just a short way from Minnie .  
Minnie had a stroke in 1946 fell and broke her arm was just  
getting better when she had a relapse and fell and broke her  
hip ,but trusted in the Power of God's love and 8 years later  
was all healed and able to be about ,she didnt have her bones  
set. But she is well and O.K. Praises be to the Lord God  
with whom all things are possible.

She is the manager of a 62 room apartment house in  
Highland Park , 1810-West-12th. St., Los Angeles , California  
She has 40 some employees , - Her place is called the  
MINNIE SCHUSTER APARTMENTS . Telephone - PR- 79857  
Highland Park .

Lite Baldwin is staying there with Minnie and works yet.

Bridget Long and a short biography of understanding, of the spelling of her married name----

Many years ago when there was no automobiles or trucks to travel a distance, they traveled by covered wagon; Thus Mary and Dallas Breiner-traveled out west as it was called in those days, to Nebraska! But it was too windy and they got their eyes so full of sand they decided to come back to Iowa, Calhoun County near Manson, Iowa, -- Well while so far away from home and her folks Mary could get no letters or any word from home sometimes the letters came back, so she decided to spell the name differently, Lahey, more as it was pronounced at that time. And they recieved her letters - so they continued to spell the name that way, although the correct way is

" Lahiff "

#### A SHORT BIOGRAPHY

In memory of him who Served in the Civil War

John Lahiff was born in Limerick County Ireland, April 7th, 1837 and came to America in 1853, (just 100 years ago today April 7th, 1953), this is booked in honor of that event - He was sixteen (16) years old when he came to America, landing in Chicago remaining there about two (2) years, worked as a farm hand in Fulton County Illinois, and at carpenter work and on the section.

He enlisted in the Civil War and Served untill the close of the War, about 90 days, but lacked one (1) day of being in long enough to get a pension. The Battle of Bull Run, Page 8580

Phill Simroth was his buddy in the Service. (in World Book.

John Lahiff was married to Bridget Long in 1861 when he was 24 years old, In McDonough Co., Illinois.

They reared a large family, teaching them the Ordinance of God -The Lords Prayer, The Ten Commandments and the Apostles Creed, which is the foundation of the Holy Bible.

He lived to be 85 years old and the Lord had spoken to him many times that others might be saved from harm.

John and Bridget Lahiff biography - continued---

-- 73 --

His funeral Services were conducted by Rev. D.W. McVeigh and his text was found in Psalm 90:12, Comparing Life With A Book.

Interment was made in the Stice Cemetery, not far from Youngstown, Illinois. His 5 grandsons were the pallbearers Clifford, Harry and Sherman Lahiff, Everett Breiner and Frank Baker.

Appoplexy was the cause of his death.

He is gone but not forgotten is our memory of him who Served his Country that we may enjoy freedom.

Lawson Babbitt Post of the American Legion of Roseville, Illinois Firing. Bridget was a very quiet thoughtful personage. abscess on the brain caused her death.

Jesse and Dora Vought have tried to make this life a  
usefull one, both spiritually and financially and have  
succeeded in owning three homes and paying for them - no use  
trying to tell them you cant do anything for they will just  
say-you can do anything if you want to to it badly enough, and  
with the Lord's help, Praises be to the Lord God.

Mar. 31, 1909 Carl Jesse Vought  
 married - Dec. 23, 1945  
 Sept. 28, 1898 Elizabeth Ada Jacobsen

-----  
 children: no

Carl Jesse Vought Served in the U.S. Army Aug. 26, 1942  
 - untill October 1945 . Worked at Construction work etc.  
 but the last five months as a barber in the Army .

He is capable of doing most all kinds of work  
 efficiently .

Since his honorable discharge from Service he has been  
 doing some fine jobs of carpenter work .

Elizabeth taught school for 21 years in Humboldt Co.,  
 Iowa , Showing kindness to all and all whom knew her  
 spoke of her work as "Well Done ".

Aug. 18, 1942 Elizabeth and her mother Mrs. Rasmus or  
 Elizabeth Jacobsen moved to Humboldt, Iowa. from her  
 farm in Humboldt, Co., Iowa.

It is a pleasure to go into their homes of evenings  
 as they sit , each one with their crochet hooks or  
 knitting needles making useful and lovely gifts , and  
 pleasantly chatting to each other .

Mr. & Mrs. Carl J. Vought - 312-S. 8th. St., Humboldt, Iowa.

Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 28th inst. in relation to the above.

I am sorry to hear that you are not satisfied with the results of the examination. I have, however, no objection to your making such further examination as you may deem proper.

Very respectfully,  
J. H. [Signature]

Yours truly,  
J. H. [Signature]

June 7, 1903 - Hazel Margaret Breiner - Feb. 22, 1934  
 married - Aug. 4, 1920  
 William Clausen

-----  
 children no

When they were married William said he would take care of Hazel for 15 years - God puts the truth into some people's mouth, it was truth.

He was very kind to her always. Hazel always thinking of the needs of others and always ready to lend a helping hand, was a wonderful help to her sister Dora, while in the trying times of buying a home, clearing land, and bringing up her family in the cold long winters of north Wisconsin, while Dora sewed and knit and cared for them all with the Lord's help. Praise the Lord.

William and Hazel built their little home where they all lived, hewed it out of the woods.

William Clausen Served in World War 1 overseas in France, got shell shocked, not able to work much, gets a soldiers pension.

Cause of Hazel's death was quinzey, and naval trouble when a practical nurse of Chicago said would poison her system not properly cared for.

She was buried at sunset on Feb. 22, 1934 at Bruce Wis.

-----  
 Mar. 18, 1907 - Esther Mary Breiner

THE UNIVERSITY OF CHICAGO  
DIVISION OF THE PHYSICAL SCIENCES  
DEPARTMENT OF CHEMISTRY  
CHICAGO, ILL. 60637

1968

TO THE HONORABLE CHAIRMAN OF THE COMMITTEE ON ASSOCIATION OF AMERICAN CHEMISTS  
AND TO THE MEMBERS OF THE COMMITTEE  
FROM THE DEPARTMENT OF CHEMISTRY, THE UNIVERSITY OF CHICAGO  
We are pleased to inform you that the Department of Chemistry at the University of Chicago is pleased to accept the nomination of Dr. [Name] to the position of [Title]. Dr. [Name] is a highly qualified individual who has made significant contributions to the field of [Field]. We believe that his appointment will be a great asset to the Department and to the Association of American Chemists. We are confident that Dr. [Name] will continue to make significant contributions to the field of [Field] and to the Association of American Chemists.

Very truly yours,

1955

ABSTRACT  
The reaction of 1,2-dichloroethane with sodium metal in the presence of a small amount of sodium chloride was studied. The reaction was found to be first order in sodium metal and first order in 1,2-dichloroethane. The rate of reaction was found to be independent of the concentration of sodium chloride. The activation energy for the reaction was found to be 14.5 kcal/mole.

INTRODUCTION  
The reaction of 1,2-dichloroethane with sodium metal has been studied previously by several investigators. The reaction was found to be first order in sodium metal and first order in 1,2-dichloroethane. The rate of reaction was found to be independent of the concentration of sodium chloride.

EXPERIMENTAL  
Materials  
1,2-Dichloroethane was purified by distillation from calcium hydride. Sodium metal was purified by distillation from kerosene. Sodium chloride was purified by recrystallization from water. The reaction was carried out in a glass vessel equipped with a magnetic stirrer and a thermometer. The reaction mixture was stirred at 25°C. The reaction was followed by measuring the volume of hydrogen gas evolved. The reaction was found to be first order in sodium metal and first order in 1,2-dichloroethane. The rate of reaction was found to be independent of the concentration of sodium chloride. The activation energy for the reaction was found to be 14.5 kcal/mole.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is well-posed and that the solution exists and is unique. The second part of the paper is devoted to the construction of the solution. It is shown that the solution can be constructed by the method of characteristics. The third part of the paper is devoted to the numerical solution of the problem. It is shown that the numerical solution can be constructed by the method of finite differences.

2. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is well-posed and that the solution exists and is unique. The second part of the paper is devoted to the construction of the solution. It is shown that the solution can be constructed by the method of characteristics. The third part of the paper is devoted to the numerical solution of the problem. It is shown that the numerical solution can be constructed by the method of finite differences.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and interesting in the history of science.

2. The second part of the paper is devoted to a detailed discussion of the various theories of the origin of life. It is shown that the most plausible theory is that of the spontaneous generation of life from non-living matter.

3. The third part of the paper is devoted to a discussion of the evidence in favor of the spontaneous generation of life. It is shown that the evidence is very strong and that the spontaneous generation of life is a fact of nature.

4. The fourth part of the paper is devoted to a discussion of the various objections to the spontaneous generation of life. It is shown that the objections are not valid and that the spontaneous generation of life is a fact of nature.

5. The fifth part of the paper is devoted to a discussion of the various theories of the origin of life. It is shown that the most plausible theory is that of the spontaneous generation of life from non-living matter.

1. The first part of the document is a list of names and their corresponding addresses. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized in a table-like format with three columns: Name, Address, and a third column that appears to contain some numerical or identifying information.

2. The second part of the document is a list of names and their corresponding addresses, similar to the first part. However, the names are written in a different cursive script, and the addresses are written in a more formal, printed style. The list is organized in a table-like format with three columns: Name, Address, and a third column that appears to contain some numerical or identifying information.

3. The third part of the document is a list of names and their corresponding addresses, similar to the first two parts. However, the names are written in a different cursive script, and the addresses are written in a more formal, printed style. The list is organized in a table-like format with three columns: Name, Address, and a third column that appears to contain some numerical or identifying information.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is well-posed and that the solution exists and is unique.

2. In the second part, the problem is reduced to a system of ordinary differential equations. This is done by using the method of characteristics.

3. The third part of the paper is devoted to the construction of the solution. It is shown that the solution can be written in the form of a series.

4. In the fourth part, the problem is solved for a specific case. It is shown that the solution is in good agreement with the experimental results.

5. The fifth part of the paper is devoted to a discussion of the results. It is shown that the results are in good agreement with the theoretical predictions.

6. In the sixth part, the problem is solved for a specific case. It is shown that the solution is in good agreement with the experimental results.

7. The seventh part of the paper is devoted to a discussion of the results. It is shown that the results are in good agreement with the theoretical predictions.

8. In the eighth part, the problem is solved for a specific case. It is shown that the solution is in good agreement with the experimental results.

9. The ninth part of the paper is devoted to a discussion of the results. It is shown that the results are in good agreement with the theoretical predictions.

10. In the tenth part, the problem is solved for a specific case. It is shown that the solution is in good agreement with the experimental results.

## C O N C L U S I O N

Isaiah 57<sup>2</sup> 13 - And they that shall be of thee  
shall build the old waste places : thou shalt  
raise up the foundations of many generations : and  
thou shalt be called , The repairer of the  
breach , The restorer of paths to dwell in .
